

DRAW YOUR OWN CAT!

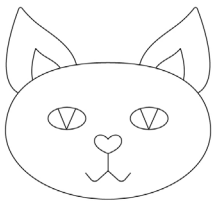

Step 1: Draw an oval shape for the head and add two larger triangle shapes on top. Add smaller triangles inside the larger ones to make the ears.

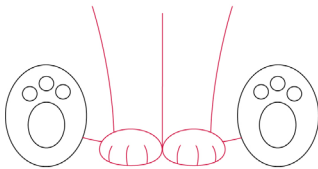

Step 2: Now for the face. Draw two small ovals for the eyes and add a triangle shape in the middle of each. For the nose, draw a small heart in the middle of the head. To make the mouth, draw a straight line from the middle of the nose and add a 'w' shape at the bottom.

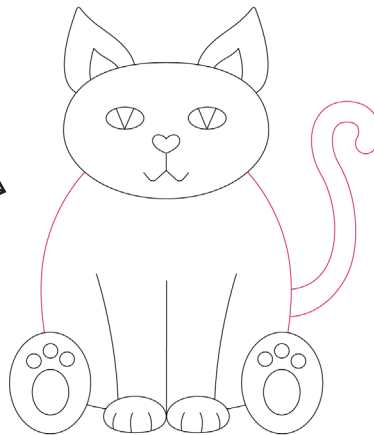

Step 3: Draw two large circles beneath the head. Add an oval shape in the middle of each circle. Then, draw smaller circles above the oval to make the toes.

Step 4: And now we add the front legs and paws. Draw three lines in the middle of your earlier circles and join them together at the bottom with two ovals. Add lines inside the circles to make the toes.

Step 5: Now draw curved lines to connect the two circles to the head and the legs. Add a tail by drawing a swirly 's' shape on one side of the body.

Step 6: And now you have your kitty! Feel free to add extra details if you like, such as whiskers, stripes and a collar. (To draw the stripes, add triangles all around the edges of the cats face and body.) Then colour it in.
